**Subject:** NGS on map of generating stations in AZ  
**Attachments:** Affected AZ EGU Map and Data with NGS.pdf

All:  
See below.  
This was a quick turnaround on the request to include data on NGS.

Here is Kamran's update of the map to include NGS with emissions data.

I understand, Steve.  
I think folks at Navajo would appreciate some emissions data on NGS.

I can ask NM for data on Four Corners power plants.

We don't currently, but I'll look into it. We didn't include the Navajo Nation plants, because the subject of my presentation was how ADEQ's implementation of the CPP could affect tribes. ADEQ, of course, has no jurisdiction over NGS or Four Corners.

I don't think it would take much time to add NGS to our map, but Four Corners is in the New Mexico portion of the reservation, so we would have to expand the current map to include it. I'm not sure how much time that would take.

**Subject:** map of generating stations in AZ

Steve:

I have the map you sent December 30, 2015.

It has all the generating stations in AZ, EXCEPT the ones located on the Navajo Nation.

Do you have a map and some data for those 3 coal-fired power plants? I have received a request for it from one of the CPP community training attendees.

Thanks
